## SUMMARY

Results-oriented computer science student with a passion for problem-solving and a strong foundation in programming, algorithms, and software development. Currently pursuing B.E. with a focus on Full Stack Web Development . Adept at collaborating in team-based projects, with a proven track record of meeting tight deadlines. Proficient in multiple programming languages and experienced in using development tools and software frameworks. Eager to apply my technical skills and knowledge to real-world challenges, with a strong commitment to continuous learning and professional growth.

## EDUCATION

**Chandigarh University**

Bachelor of Engineering (Computer Science)
2021 – 2025

**Little Angels Senior Secondary School**

- Marticulation - 92%
- Higher Secondary(12th) - 83% (Non-Medical)

## SKILLS

- React Js , Javascript , Tailwind CSS , Html
- Spring boot , Java , Maven-Apache
- MySQL , Workbench
- C/C++ ,  Java , Python , OOPs Concept
- Flutter, Dart , API Integration
- Data Structures and Algorithms
- Rest APIs Integration with Application
- FireBase Authentication and Storage
- Exceptional communication and interpersonal skills
- Ability to work independently and as part of a team

## CERTIFICATIONS

- Front-end Development using React (Coursera)
- Spring MVC , Springboot and Rest Controllers (Coursera)
- Internship Completion Certificate by Mk App Creatives (by Microsoft)

## PROFESSIONAL EXPERIENCE

**Software Developer-Intern**

Mk App Creatives | 2023 - Present

- Led the implementation of a modular and reusable component architecture in React.js.
- Gathered requirements and delivered solutions in Agile environments.
- Collaborated with cross-functional teams to integrate React.js features seamlessly.

## PROJECTS

**Full Stack E-Commerce Website (ShopX)**

ShopX | 2023- Present

- "ShopX" is an e-commerce platform developed using React.js for the front-end, Spring Boot for the back-end, MySQL for data management, and REST APIs for seamless communication. This project demonstrates my full stack development skills and the ability to create a user-friendly online shopping experience.
- Payment Gateway is Integrated using stripe
- User Authentication is managed using FireBase Authentication
